

COMMANDCENTRAL EXTENSION FOR PREMIERONE RECORDS

Major shifts in technology, data volume and reporting standards have drastically changed Records Management requirements for agencies. Your agency has invested a lot in your existing records management system, relying on PremierOne Records to simplify information collection, ease data management and enable efficient case work.

CommandCentral is our cloud-based, next-generation software platform. Motorola Solutions designed a CommandCentral Extension specifically for agencies with PremierOne Records to provide access to features that expedite case review and resolution, improve data quality and integrity, streamline digital evidence collection and management, and provide insight for data-driven decision making. Explore what's possible for your agency when you decide to extend CommandCentral capabilities to your PremierOne Records system.

NEXT-GENERATION FEATURES

CLOUD DATA BACKUP AND RESTORE

Maintain peace of mind without additional hardware investment by backing up your records data into the cloud.

CAPTURE APP

Capture images, videos, and audio on scene with a simple smartphone application. This media is directly uploaded to CommandCentral Vault.

DIGITAL EVIDENCE MANAGEMENT

Build stronger cases, easier, by consolidating access to and automating the organization of all digital evidence. 250 GB of Storage is included at no charge. Additional blocks of 250 GB can be purchased if necessary.

CONSOLIDATED RECORD VIEW

Quickly understand a case with all relevant records and evidence compiled into a unified, incident-based view.

UNIFIED SEARCH

Find the information you need, faster, using a smart, free-text search engine over all agency records and evidence.

OPERATIONS DASHBOARD

Receive curated, actionable insights from across the CommandCentral suite, including items that need attention, review, correction or completion.

PIN MAPPING

Visualize geographic crime data to see where a crime occurred, and for more informed crime fighting decisions.

JAIL CLOUD-BASED FEATURES (OPTIONAL)

Intake Workflow and Inmate Activity streamline offender management for a smooth intake and reliable inmate activity tracking. (CommandCentral Jail customers only)

Operations Dashboard (Workflow & Crime Trend Alerts)	Requires Cloud Data Backup & Restore and the Consolidated Record View	Release 4.5	N/A

NEXT-GENERATION RECORDS MANAGEMENT

PremierOne Records combined with these CommandCentral capabilities is your path forward to next-generation records management. Information collection becomes simpler for officers so they can spend more time on patrol and in the community. Records managers can overcome the management complexity they are facing as the variety and volume of data continues to increase. And investigators can more effectively work to close more cases to keep people safe.

But CommandCentral is also the foundation of something much bigger. We build software for mission-critical environments where every second matters. CommandCentral is our cloud-based, next-generation platform that unifies data and streamlines workflows from call to case closure, putting your information to better use, improving safety for critical personnel and helping keep your focus on the communities you serve.
