

QUALITY. VALUE. JUST RIGHT.

MOTOROLA SOLUTIONS VX- AND EVX- SERIES RADIOS AVAILABLE NOW

We are pleased to announce availability of the latest additions to the Motorola Solutions licensed two-way radio portfolio. The VX- and EVX- Series radios provide easy-to-use reliable communications at an affordable price:

- Analogue only models
 - **VX-260 Series** portable radios: the VX-261 (no display) and VX-264 (with display) give basic push-to-talk communication that's an ideal introduction to licensed two-way radio.
 - **VX-450 Series** portable radios : the VX-451 (no display) , VX-454 (display and limited keypad) and VX-459 (display and full keypad) boast a rugged waterproof design with enhanced features like Lone Worker and Emergency Alerts.
 - **VX-2000 Series** mobile radios: the VX-2100 (single-digit numeric display) and VX-2200 (8-character alphanumeric display) are compact and easy to install and offer multiple scan options.
- Dual analogue and DMR digital models:
 - **EVX-261** portable radio: the EVX-261 has crisp and clear audio and provides a cost-effective path for digital migration.
 - **EVX-S24** portable radio: available in black or yellow housing, EVX-S24 is IP67 dust- and waterproof to meet harder working environments.
